## POSITIVE INFLUENCE

The future of our community rests with its children. Our goal is to address the most pressing issues facing our young people, to change and indeed save lives. Make no mistake - the need is great. The crises are real. Our local high school graduation rate hovers at 75 percent, and only 62 percent among some minorities. Gangs, poverty and violence blight entire neighborhoods. An epidemic of childhood obesity severely threatens the health of our youth.

But there is good news - our Clubs address the most critical issues facing our youth providing programming targeted toward the following outcomes:

**Academic Success** - We create a culture in our Clubs in which everyone understands the importance of high school graduation. Through partnerships and community volunteers, we offer comprehensive programs that provide everything from homework help and computer learning to career counseling to guide our youth. Our kids understand there's a supportive network of caring people ready to help them succeed.

**Good Character and Citizenship** - It is not enough to teach our children to learn without teaching them to care about their fellow Club members and classmates, about their families and community. Our Clubs provide encouragement and opportunities for members to serve their neighbors, their community and their Club.

**Healthy Lifestyles** - Our Clubs offer multi-faceted programs designed to promote health and wellness for our members.

# CELEBRATING SUCCESS!
