Program Recommendations

Directions: Please provide program recommendations in Column A based upon the results of this Formative Assessment. These recommendations can come from within the program, the external evaluator, or other program stakeholders. In Column B, please describe specific steps for implementation that the program will follow to ensure the recommended actions occur. **Delete the examples in both columns before entering comments.**

Recommendations	Steps for Implementation
Consider a strategic focus on a small number of core classroom management routines for the site that will bring consistency throughout the staff, with the goal of predictability of routines/expectations for participating students. An example would be the use of a "bell ringer" activity for the beginning of each segment; or, the use of defined "voice levels" for the various parts of the building (i.e. hallways, voice level 1, triple play body voice level 3, etc.)	Leadership at the site will give staff guidance supported by the Program Director based on the recommendation to focus on a small number of core classroom management routines for the site that will bring consistency throughout the staff by 1) being intentional with rituals, and think about and design rituals for daily routines in advance. 2) Give youth the opportunity to share their ideas about rituals and design them with staff. 3) Implement an attention getter, chant or gesture that can be used throughout a session to get a group's attention in a respectful and engaging way to reduce noise level.
